

Super Lightweight by Hobur Twente

This newly developed tank semi trailer was recently delivered to Transport Vandervorst in Belgium as the first unit in a series. By applying the latest in high grade steel we are able to upsize the **tank volume to 60m³** with an **empty weight of only 11300kg** allowing to carry a payload of more than 25 tonnes in this P25BN tank under a 44tonnes GVW regime (52,5m³/10400kg/40tonnes), depending on equipment installed.

Data and dimensions*

ADR tank code	P25BN
Tank volume	59 m ³
Empty weight	11600 kg
Maximum weight	39000 kg
Maximum weight coupling	12000 kg
Maximum weight axles	27000 kg
Pump capacity	1000 litres/minute

*weight and dimensions including equipment as listed
